

STANDARD RESIDUAL VALUES

Program Period: January 6, 2026 until further notice (as of 01/06/2026)

2024 Residuals: To calculate the residual for an unpublished 2024 model year vehicle, please subtract 8% (ppts) from the corresponding 2025 model year residual %

Example: 2025 Residual = 63% | 2024 Residual: 63% - 8% = 55%

Residual Program Parameters (refer to Dealer Manual for more details)

Residuals in effect for new vehicles with 0-500 miles at lease inception

For vehicles with between 501 and 6,000 miles at inception deduct 2% from published residual %

Standard annual contract mileage is 15,000

12,000 and 18,000 mile options are available with listed residual adjustments

Odd term leases are available

Calculate odd term residuals as follows:

39 month = 36 month residual minus 2%

51 month = 48 month residual minus 2%

42 month = 36 month residual minus 4%

54 month = 48 month residual minus 4%

Non-Published Residuals (Standard Only)

Where applicable, use the following calculation for non-published new Toyota model residuals:

Residual: Add 2% to the current published residual of the same prior model year vehicle

MRT: Add \$1,000 to the base TSRP (including destination) of the current/new model year vehicle

MRT's (maximum residualized TSRP) are in effect for all vehicles

Example of residual calculation if TSRP exceeds published MRT:

Base TSRP (Includes Destination)	\$ 25,000	
Optional Equipment	\$ 1,500	
TOTAL TSRP	\$ 26,500	
Maximum TSRP (MRT from matrix)	\$ 26,000	
Residual Percentage (from matrix)	61%	
Maximum Residual Value	\$ 15,860	(\$26,000 X 61%)

Calculate MRT

Add \$1,000 to the base TSRP (including destination) of the current/new model year vehicle

Note: This calculation is to be used only on new and untitled Toyota models that do not have a published residual.

Lease Residual Adjustment for Mileage at Inception

All published SET Finance residual bulletins reflect 0-500 miles at lease inception. Attached are the current residual adjustments for leases with between 501 and 6,000 miles at inception. These adjustments should be applied based on the lease term and contract mile option as indicated.

Program Period: January 6, 2026 until further notice

Residual Adjustment for 501 – 6,000 Miles at Lease Inception				
Lease Term	< 36 Months	36-60	All Terms	All Terms
Annual Contract Miles	12,000	12,000	15,000	18,000
Residual Adjustment	-2%	-2%	-2%	-2%

Sample Calculation of Reduction for Mileage at Lease Inception:

Example:

TSRP	\$24,000	Term	48
MRT	\$23,800	Mileage at Inception	2,900
Residual %	57%	Contract Miles / Year	15,000

Calculation:

Reduce Residual 2% for 2,900 miles at inception: $(57\% - 2\%) = 55\%$

Residual \$: $(\$23,800 \times 55\%) = \$13,090$

This program applies to all new leases. All other terms and conditions of the standard SET Finance lease program apply.

Option to Purchase Additional Lease Contract Miles

Did you know SET Finance allows your customers to purchase additional lease contract miles up front at a discounted rate?

With SET Finance's 18,000 mile lease, there is an even greater opportunity to provide cost savings to customers who expect to drive more than the standard mileage allowance!

The cost of excess mileage purchased at lease inception is \$0.10 per mile for each contract mile purchased beyond 18,000 miles.

- Effective Date: **January 6, 2026 until further notice**
- The prepaid mileage must be included in the residual calculation and is non-refundable for miles not used
- **Underlying lease must start at 18,000 miles per year**
- Total residual value cannot be reduced below 20% of the total TSRP (including adds)
- Excess miles at lease end will still be charged \$0.18 per mile in excess of the total allowable contract miles

Sample calculation of excess mile charge

MRT = \$24,000	Term = 36 months
TSRP = \$23,600	Annual standard miles = 18,000
18K Residual % = 42%	Annual excess miles purchased = 3,000

Calculation:

Excess miles per year = 3,000 x 3 years = 9,000 miles purchased

Allowable total miles over the term is 63,000 or annual miles of 21,000

$9,000 \times \$0.10 = \900.00

Residual \$: $(\$23,600 \times 42\% = \$9,912.00) - \$900.00 = \mathbf{\$9,012.00}$

Security Deposit Rate Buy-Down Program

In our continuing effort to offer a wide variety of competitive programs, SET Finance is pleased to continue the Security Deposit Rate Buy-down Program. Program Period: January 6, 2026 until further notice

The rate reduction must be calculated from the current applicable program rate factor. **The security deposit must be calculated using the base lease factor before the rate reduction is applied.**

<u>Example</u>	
Vehicle Cost	\$20,000
TSRP	\$22,500
Term	36 Months

No Additional Security Deposit

10 Additional Security Deposits

Base Rate Factor	.00269	Base Rate Factor	.00219
Sale Price	\$22,500	Sale Price	\$22,500
Admin Fee	\$ 695	Admin Fee	\$ 695
Cap Cost	\$23,095	Cap Cost	\$23,095
Residual	\$11,925	Residual	\$11,925
Base Payment	\$ 493	Base Payment	\$ 476
Security Deposit Due	\$ 500	Security Deposit Due	\$500 + \$5,000 = \$5,500

- **This rate reduction is not available for lease customers where additional security deposits are required as a condition of the deal.**
- **This program may not be used with rate participation.**

All other terms and conditions of the SET Finance standard lease program apply.
